

Kalahari

Dehumidifier

The Kalahari is the smallest in our range of highly efficient building dryers and dehumidifiers. Dehumidification is the best way to accelerate construction time on building sites without causing cracking or distortion to the 'wet' processes, such as concrete floors and plaster walls. For small areas and single rooms, the Kalahari is the best choice to create an arid climate.

- + CFC free – The Cross Kalahari dehumidifiers use R407C
- + Operation down to 0°C the Kalahari are supplied with hot gas defrost
- + Dual voltage – the Kalahari can be supplied with 110/240 volt option
- + Non-marking castors – the Kalahari leave no wheel marks on floors
- + Comprehensive Service Department –supported by nationwide service engineers

SPECIFICATIONS

	Kalahari
Removal Capacity (30° C 80% l/24hr)	23
Voltage (Volts)	230
Air Volume (m ³ /h)	600
Weight Kg	30
Dimensions W x L x H (mm)	356 x 356 x 570
Tank Capacity (Litres)	6.2
