

**S**trong and incredibly efficient, the Ordos building dryer and dehumidifier are designed to withstand the rigours of prolonged use on construction sites, flooding, fire damage and drying buildings that have been empty for prolonged periods. The Ordos is very manageable and will work as low as temperatures of 0°C, so no matter in what the season, the Ordos will ensure you can keep working.

- + CFC free – The Cross Ordos dehumidifiers use R407C
- + Operation down to 0°C the Ordos are supplied with hot gas defrost
- + Dual voltage – the Ordos can be supplied with 110/240 volt option
- + Non-marking castors – the Ordos leave no wheel marks on floors
- + Comprehensive Service Department –supported by nationwide service engineers
